ScienceClaw

Massachusetts Institute of Technology · Laboratory for Atomistic and Molecular Mechanics · E14

FOUNDING PARTNERSHIP OPPORTUNITY · 2026

Build the collective that builds the future of science.

ScienceClaw is a hackathon for building decentralized agent collectives that solve real scientific and technical problems.

OCT 30 – NOV 1, 2026 | MIT MEDIA LAB | SCIENCECLAWHACK.AI

150	3 days	2–5	4
CURATED BUILDERS	IN PERSON	PER TEAM	CHALLENGE AREAS

WHAT TEAMS BUILD

01 **Problem** — a difficult, consequential scientific or technical challenge.

02 **System** — a functioning decentralized agentic system.

03 **Result** — a meaningful outcome the system actually accomplishes.

04 **Validation** — evidence, benchmarks, comparison, or real-world testing.

WHY PARTNER

→ **Deploy** technology with multidisciplinary builders.

→ **Discover** integrations, use cases, and failure modes.

→ **Connect** with curated technical and scientific talent.

→ **Lead** the emerging internet of scientific agents.

PARTNER CAPABILITIES
Challenges · data · models · compute · hardware · labs · mentors

→ **AGENTS**
Specialized capabilities coordinate

→ **TEAMS**
Build and validate working systems

→ **ECOSYSTEM**
Reusable outcomes propagate

FOUNDING PARTNERSHIP LEVELS

BENEFITS COMPOUND UPWARD

SUPPORTER
$5K
Visibility, two passes, mentors, and showcase access.

BUILDER
$15K
Adds a workshop, toolkit placement, demo table, and opt-in directory.

PLATFORM
$30K
Adds a challenge, judging, prominent branding, and curated introductions.

PRESENTING
$50K
Adds premier attribution, stage time, private preview, and an outcomes report.

LIMITED TO ONE

CAPABILITY PARTNER · IN KIND

Compute, APIs, models, datasets, robots, sensors, fabrication, or laboratory access. Recognition is based on usable event value and support—not list price.

Sponsorship supports access and participation—not guaranteed outcomes or favorable judging. Participant information is shared only with explicit consent.

Sponsorship enables prizes, compute, hardware and lab access, participant meals, and event operations.
